

Art and Design

We will look at a range of British artists and investigate the styles they used in their work. Alongside this we will be developing our sketching techniques and our eye for detail.

Computing

We will explore what systems and networks are and how they all link. We will then explore different forms of media.

Design and Technology

We will discover the different ways materials have been used to enable us to create light to see and then will be creating our own devices.

English - Reading

'D-Day Dog' by Tom Palmer and 'Friend or Foe' by Michael Morpurgo both give different perspectives on World War 2 and will help our class develop their knowledge and understanding of British History.

English – Writing

As we read our class texts, these will inspire the writing we create; from detailed descriptions of characters, to recounts, biographies and even our own stories.

Curriculum Information for parents/carers

Year 3 – Hazel – Autumn

In Year 3, we aim to help the children to become more independent learners, confirm what they already know and where their learning will go next. Reading is a huge part of Year 3 and something that will be focused on all year, through all of our learning.

Geography

We will investigate maps to understand how different trade links were set up and look at the globe to understand what these trade routes enabled us to do.

History

As we read about the different events in the World War 2, we will be delving deeper in to one particular area 'Spirit of the Blitz'.

Maths

We will be growing our understanding of number through place value up to 1,000; developing our understanding of addition and subtraction; then move on to multiplication and division.

Modern Foreign Languages – French

We begin our learning of French by learning greetings, simple conversations and how to talk about ourselves.

Music

We will listen and share our thoughts on pieces of music, practice how to sing together and investigate the glockenspiel.

Personal, Social, Health, Economic

We will be reflecting on things that are important to us, understanding the relationships we have and the effect we have on others.

Physical Education

MONDAYS & FRIDAYS

We are focusing on teamwork, gymnastics and dance.

Religious Education

We will be exploring the Trinity in Christianity and Hindu's beliefs in God.

Science

We will learn about certain scientists and inventors who have impacted our world and explore Light.
